

UNIVERSITY OF
GEORGIA

Department of Physics
and Astronomy

Franklin College of Arts and Sciences

Prof. Zhigang Zhu
School of Health Science and Engineering
University of Shanghai for Science and Technology

November 23, 2023

Dear Zhigang:

I am delighted to extend an invitation for you to visit our laboratory and department from April 11 to April 21, 2024. To ensure accurate arrangements, I have noted your birth date as October 10, 1977, and your passport number as [REDACTED].

During your visit, I am eager to engage in discussions regarding potential future collaborations between our teams. It would be a wonderful opportunity for you to meet with our faculty members and students. I am particularly interested in fostering collaborations with your research group, and I believe this visit will provide an ideal platform for establishing meaningful connections.

Additionally, I would like to propose the possibility of arranging two talks during your visit. One talk could be scheduled for the Department of Physics and Astronomy, allowing you to share insights into your research with our colleagues and students. Another presentation could take place in the College of Engineering at the University of Georgia, broadening the impact of your work across different academic realms. I look forward to the prospect of your visit and the enriching discussions and collaborations that may unfold during this time. Please let me know if these arrangements align with your schedule and preferences.

Sincerely,

Yiping Zhao
Distinguished Research Professor of Physics
