

**30 June - 4 July 2024**  
**Melbourne Convention and Exhibition Centre**

Dear Jijun,

Thank you for submitting a paper for the 29th Opto-Electronics and Communications Conference 2024 (OECC2024).

We are pleased to confirm that your paper(s) listed below has been accepted for inclusion in the program.

|                     |   |
|---------------------|---|
| <b>Title</b>        | Phase apodized silicon Bragg grating filter with varying sidewall ridge width |
| <b>Paper Number</b> | 123   |
| <b>Paper Status</b> | Accepted for Oral Presentation  |
| <b>Theme</b>        | Track 3 - Optical Passive Devices and Modules                                 |

Presenters are required to be registered for the Conference, no later than **9 April 2024**, in order to be included in the final released program.

Please note you can register and click the 'pay later via invoice' option on the payment page if you require approval from your organisation.

This will allow you to register with payment being collected at a later date.

To register please click on the [Registration Form](#), please note this link is unique to you and is not be shared with anyone else.

Guidelines, allocated timeslots and further instructions regarding your presentation will be shared with you in the coming months.

If you have any questions please contact the [Conference Secretariat](#).

Yours Sincerely,

**OECC 2024 Conference Secretariat**
