

Advanced Materials World Congress

 26 - 28 May 2025
Stockholm, Sweden

Mar 14, 2025

INVITATION LETTER

To,

Prof. Yuhai Dou,

University of Shanghai for Science and Technology, CHINA

E-mail: y.dou@usst.edu.cn

Dear **Prof. Dou,**

The Advanced Materials World Congress (<https://www.advancedmater.org/world/>) is an annual assembly organized by the International Association of Advanced Materials in Stockholm, Sweden during 26-28 May 2025. This congress intends to provide an opportunity to promote intensive discussions and collaborations among participants to enhance and widen the knowledge of advanced materials science, engineering & technology and to surge innovation and responsiveness for the technological needs towards advancements of materials to sustainable and greener world.

We are pleased to accept your abstract and invite you to join us in this important international event to contribute your own expertise and present **IAAM Fellow Lecture** on your submitted work entitled, '**Design of Atomically Thin Materials for Energy Storage and Conversion**'. Your abstract is also going to be published in the Congress Proceedings Book with ISBN number. All attendees must register for the congress and pay the appropriate registration fee on due date. Organizer does not provide financial support for travel, accommodation, or other costs.

If it is required for you to get a travel visa to attend this congress, please use this letter as an official invitation. Thank you for your interest in participating in this assembly. We look forward to welcoming you in the Congress.

Yours sincerely

(Dr. Ashutosh Tiwari)
